Claims 1 – 3, 7 – 8 are rejected under 35 U.S.C. 102(b) as being anticipated by Tolson. USP 4479309 to Tolson describes dried rice grains and dried corn grains. Starch, a polysaccharide, is widely known to be the principal component in rice and corn. Insofar as rice and corn are primarily starch and starch is known to contain carbon but no nitrogen, the dried rice and dried corn grains are also widely known to have a C/N ratio greater than 8. The dried corn or rice grain are **capable** of being used to feed a growing aquatic creature because it was known to make fish food from corn-based products, e.g., corn gluten or corn meal, as shown by USP 20040175456.

Objection is made to claims 6, 9 – 10 for dependence on a rejected base claim, but would be allowed if presented in independent form.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later
